

You can update your card by downloading the new Update software by going to the **Support>Firmware** link at [www.cobaltdigital.com](http://www.cobaltdigital.com). Download "Firmware Update Guide", which provides simple instructions for downloading the latest firmware for your card onto your computer, and then uploading it to your card through Dashboard™.

**Software updates are field-installed without any need to remove the card from its frame.**

The table below lists released software versions and describes the corresponding functions additions, improvements and/or corrections.
